

Low carbon live/work is here...

Cloud Nine live/work units are for people who run their own businesses and want to work from home in a professional and well-designed environment.

Our live/work units are unique because they are designed not only to enable efficient homeworking but to offer incredibly low fuel costs.

Cloud Nine Livework is a venture which combines the skills of eco-home pioneers Cloud Nine and Live/Work Network, the UK's live/work experts. If you think you would like to run your business from home in a low carbon live/work space, there's a Cloud Nine Livework unit to suit your needs.

- Timber built low carbon live/work units, using renewable sources of timber
- Designated workspace/office area with access from both home area and outside
- Opportunity to combine workspace and home costs in one property
- £26 per year space heating costs*, giving low all-of-life costs (2 bedroom unit)
- Rapid build offsite giving known costs, normally 4 months delivery
- Pre-approved for UK building regulations and easy to mortgage
- A complete user-friendly fresh air eco heating system
- Supplied to your site, craned into position as fully fitted modules
- Our units can meet level 4 and 5 of Code for Sustainable Homes

* Based on SAP Design Assessment for bude VO and standard NHER calculations, two person occupancy, subject to location in UK. Report NB-NES-00001430-08070315264200, Assessor 1430, date 03.07.08

What's special about our live/work?

Our live/work units are beautifully designed and extremely low carbon. They are also designed to make homeworking a pleasure, with separate spaces for office and home all in one property
